

GROTON UTILITIES

At Your Service

Dear Valued Customer:

Subject: Home Energy Savings

Groton Utilities (GU) is pleased to announce its new "Home Energy Savings Program". Customers with oil or propane heated homes in Groton can participate for the **Low Cost** of only \$75.00. This comprehensive energy assessment, which is subsidized by a State of Connecticut grant, may include the following services:

- Air Sealing to prevent drafts and leaks in the house;
- Duct testing and sealing;
- Installation of hot water-saving measures including low-flow showerheads and faucet aerators;
- Rebates for replacement of certain inefficient appliances with qualifying energy-efficient models;
- Installation of energy-efficient compact fluorescent light bulbs; and
- Incentives for insulation upgrades.

At the conclusion of assessment, the technician will review the work that was done in your home and describe additional resources that can help you save energy and money.

We have hired Competitive Resource Corporation (CRI) of Yalesville, Connecticut to provide these **Low Cost** energy conservation services. I encourage you to call them at your earliest convenience since we are taking customers on a "first come, first served" basis.

To schedule an appointment, call CRI toll-free at 1-888-403-3500.

Groton Utilities is providing this **Low Cost** to help you reduce your water and electrical power consumption and thereby, reduce your utility bills. If you have any questions or would like to discuss this **Low Cost** further, please contact me directly at the phone number or email address below.

Sincerely,

Len Mediavilla
